Summary

HELLO!! I'm Dhruv Pahwa, a passionate Bachelor of Science student in Data Science and Artificial Intelligence, I am on an exciting journey to explore the vast realms of technology and problem-solving. My academic journey has equipped me with a strong foundation in data science, artificial intelligence, competitive programming, and system design.

I thrive on the challenges presented by competitive programming and Data Structure and Algorithms (DSA), constantly pushing myself to improve my problem-solving skills and analytical thinking.

Beyond the classroom, I actively engage in quiz competitions and chess tournaments, further honing my strategic and critical thinking abilities.

Moreover, I have a creative side that finds expression through designing with Canva. Crafting visually appealing designs is a skill I've developed to complement my technical prowess.

I am excited to continue my journey in the world of technology and innovation, leveraging the knowledge and experiences gained to make meaningful contributions to the field of data science, artificial intelligence, and beyond."

Let's connect and explore the exciting possibilities ahead!
